

# bio.

## balance

better weight loss | better digestion

### WHAT IS IT?

A synergistic blend of essential nutrients that promotes healthier weight loss, ketone production and improved blood sugar levels.

### WHAT DOES IT DO?

Balance helps you achieve better weight loss and better digestion. Traditional methods of entering into ketosis can take days of eating a restrictive "keto diet" which significantly restricts carbohydrates. bioReigns Balance supports the body to produce its own ketones within hours. This encourages your metabolism to enter a state of ketosis to support the body in limiting glucose from being stored as fat, while also burning stored fat in the body.

#### KEY INGREDIENTS

#### FUNCTION

gymnema leaf extract	Derived from a tropical vine used in ancient Indian medicine, gymnema leaf extract may help reduce your body's absorption of sugar molecules and help promote insulin production.
mct oil	Medium-chain triglycerides are a healthy fat easier for the body to digest than more common longer-chain triglycerides. Many studies show MCT oil has the potential to help you feel fuller faster, and assist the body in burning more calories. MCT oil is also linked to lower cholesterol levels.
berberine	A bioactive compound that can influence many bodily systems at a cellular level, particularly the metabolism. Berberine can help maintain healthy blood sugar levels, potentially limit the growth of fat cells, and may help combat non-alcoholic fatty liver disease.
catestatin peptide	An antimicrobial neuroendocrine peptide. Catestatin may help support the body's cardiac and immune systems, as well as the body's processing of stored fat cells.
rapidCT	By using the body's natural ability to absorb water, our proprietary technology protects and delivers each nutrient quickly, efficiently, and directly to your cells, offering optimal nutritional benefits and creating a better way to a better you. a better way to a better you!
