pure curcumin

ancient wisdom, modern tech

WHAT IS IT?

Curcumin is an extract of turmeric, a plant originally found in Southeast Asia and India. The peoples indigenous to these lands have used turmeric for thousands of years as seasoning for food, dye for fabric, and as an herbal remedy.

Though humans have been using curcumin in an effort to heal themselves for centuries, the body struggles to absorb it. Curcumin is not dissolvable in water, meaning our water-based bodies can only use what remains after digestion. But with Pure Curcumin, your body can use RapidCell Technology to start absorbing curcumin directly through your cells.

WHAT DOES IT DO?

The biological benefits of curcumin have been well documented for decades. Studies have shown that curcumin has the ability to help with heart health, skin inflammation, and brain health, as well as offer the body antioxidant, anti-microbial, and anti-fungal properties.

What makes Pure Curcumin unique is the rapidCT nutrient absorption technology. RapidCT delivers the fat-soluble curcumin to the body encased in a water-soluble molecule for optimized bioavailability. Even if you have tried a curcumin supplement before, you may experience better and faster results with Pure Curcumin from bio.

KEY INGREDIENTS

curcumin

FUNCTION

An extract of turmeric that can help the body manage pain, stress, and inflammation.

rapidCT

The exclusive BioReigns delivery technology. By using the body's natural ability to absorb water, rapidCT protects and delivers each nutrient quickly, efficiently, and directly to your cells, offering optimal nutritional benefits and creating a better way to a better you!

REGULAR STRENGTH
30ML: \$69.99
QV/CV: 35/32

EXTRA STRENGTH
30ML: \$89.99
QV/CV: 45/41

FULL LIST OF INGREDIENTS

rapidCT Proprietary Complex (Curcumin),
Purified Water, Naturally Occurring Citric Acid

FLAVOR

Peach

RECOMMENDED USE

Place one full dropper under the tongue daily, or add one dropper to your favorite beverage. Increase or decrease amount as needed.
